

Milwaukee 5261-DE

Vacuum Assisted Dust Extractor

Item Number: MI-5261DE

The only universal tool of its kind on the market, the HAMMERVAC™ Vacuum Assisted Dust Extractor delivers a universal solution at low cost of ownership for dust extraction needs. The HAMMERVAC™ universal handle system allows quick set up and is compatible with with major brands of SDS Plus rotary hammers and AC/DC hammer drills so users can drill safely into concrete and masonry without purchasing a new drill. It features a universal vacuum attachment system that is compatible with standard hose sizes of wet dry vacuums. This allows a standard wet dry vacuum to provide power and suction needed to remove dust as holes are drilled. Includes (3) side handle clamping collar assemblies, a replacement nozzle, adjustable depth stop and ruler.
