Turbo/Rotary Nozzle

Item Number: PA-P85210140

The Turbo/Rotary Nozzle is a high-performance pressure washer attachment designed to deliver powerful and efficient cleaning. Combining the force of a zero-degree nozzle with a rotating spray pattern, it provides deep-cleaning action to remove tough dirt, grime, and stains from concrete, brick, and other hard surfaces. This nozzle increases cleaning efficiency by covering more area while maintaining high pressure. Built with durable materials and designed for compatibility with most pressure washers, it is an excellent choice for homeowners and professionals tackling heavy-duty cleaning tasks.
