

L.B. White SUN BLAST HD 100 NG

Natural Gas Heater, Radiant, 100,000 BTU/Hr

Item Number: LB-SUNBLASTHD100NG

Introducing the L.B. White Sun Blast® HD heater, a radiant-style portable heating solution engineered for exceptional performance and durability. With its modulating valve, this heater efficiently controls output, ensuring optimal heating while conserving energy. Crafted with a robust 16-gauge steel body, it offers rugged reliability for demanding job sites and industrial applications. Its stackable design adds convenience, enabling easy storage and transportation. Whether you're working outdoors or in large indoor spaces, the Sun Blast® HD heater delivers powerful radiant heat to keep you warm and productive in any environment.

Features

- Hose and regulator not included
- Modulating valve controls heat output automatically
- Integrated thermostat

- Option to hang unit during operation to free up floorspace
- Stackable
- Heavy-duty 16-gauge galvanized steel body
- Easy piezo pilot ignition and built-in tip switch
- Made in USA

Specifications

Fuel Source	Natural Gas
Heat Output (BTU/Hr)	100,000
Max Fuel Consumption	100 cu.ft/hr
Weight (LBS)	49
Dimensions	16" x 16" x 32.5"
