Milwaukee 2745-21

M18 FUEL™ 30 Degree Framing Nailer (Kit)

Item Number: MI-274521

Our M18 FUEL™ 30 Degree Framing Nailer sets the new standard for cordless framing nailers. By leveraging our nitrogen spring mechanism, POWERSTATE™ brushless motor, and REDLINK™ Intelligence, this nailer provides you with pneumatic performance and the convenience and freedom of cordless power. Delivering the power to sink full round head nails into dense engineered lumbers, this framing nailer allows you to tackle even the most demanding framing applications. To keep you productive and efficient throughout the day, the framing gun fires 3 nails per second with zero ramp-up time, meaning a nail is fired as soon as you pull the trigger. Additionally, the cordless framing nailer operates using only our REDLITHIUM™ Batteries (not included) and sealed compressed nitrogen to drive each nail, completely eliminating the cost of gas cartridges and maintenance associated with competitors' nailers. The M18 FUEL™ 30 Degree Framing Nailer delivers the pneumatic performance and durability that professional carpenters and remodelers expect, without the hassle of a compressor and hose or gas cartridge.

Features

- Power to sink nails in engineered lumber

- Fires 3 nails per second
- No gas cartridge required
- Zero ramp-up time
- Tool free drive depth adjustment
- Sequential and contact actuation firing modes
- Dry fire lockout
- Rafter hook included
- On board hex key storage
- On / Off power button
- No-mar tip included

Specifications
