Patron E3

Electric Heater, 3kW, 12A, 240V

Item Number: PA-E3

The E3 is our smallest 240V heater. It draws 12 amps and comes equipped with a NEMA 6-15P plug, which can be found in commercial/industrial environments and certain residential homes. Built to run non-stop without a break, it features a 205 CFM fan motor which distributes warm air throughout the room extremely well. It produces twice as much heat than a regular 120V space heater, resulting in a noticeable difference.

Features

- For heating, drying, and ventilating
- Integrated ambient thermostat from 32°F - 100°F
- Overheat protection at 104°F
- Durable steel casing with powder coating
- Stainless jacketed heating coils
- Fast, high temperature rise with uni-directional fan
- User-friendly and proven reliability
