Patron D-145

Compact LGR Dehumidifier, 145 PPD

Item Number: PA-D145

The Patron D-145 dehumidifier is a portable industrial-grade unit equipped with advanced "LGR" (Low Grain Refrigerant) technology, engineered to tackle high humidity levels in various industrial environments. It efficiently extracts excess moisture from the air, making it ideal for remediation projects, construction sites, or any space requiring effective humidity control. Its user-friendly control panel and portable design allows for versatile deployment wherever moisture management is essential.

Features

- Compact design makes this unit perfect for smaller areas such as crawlspaces
- Lifting handles on top for easy lifting
- Wheels and rear handle for easy maneuverability
- LGR refrigerant provides enhanced, deeper drying at lower temperatures and humidities
- Folding handle allows for stackability
- Digital control panel with humidistat, hour meter, timer, and humidity controls
- Quick-connect drain hose

Specifications

Water Removal @ 80°, 60% RH	90 pints/day
Water Removal @ 86°, 80% RH	145 pints/day
Operating Temperature	33°F - 100°F
Inlet Filter	Pleated MERV 10 *PA-D7100*
Airflow (CFM)	350
Voltage (V)	115 V
Refrigerant	R32
Wattage (W)	900 W
Amperage (A)	9 A
Drain Hose	20 ft
Cable Length	26 ft
Sound (Decibels)	65 dBA @ 1m
Certification	cETLus
Dimensions	24” x 13” x 19”
Weight (LBS)	90
Warranty	1 Year
