Patron FL-2

Low Profile Air Mover

Item Number: PA-FL2

The Patron FL-2 low profile fan is an industrial-grade air mover designed for a multitude of industrial applications, including remediation tasks. Unlike traditional carpet fans, its standout feature lies in its effortless storage capability, making it an ideal choice for environments where space is a premium. With its powerful performance and compact design, the FL-2 ensures efficient air circulation and drying, making it a valuable asset in industrial settings requiring versatile and space-saving solutions for airflow management.

Features

- Injection molded housing
- Stackable
- Dual speed
- GFCI duplex outlet
- Daisy chain up to 6 units at top speed on a 15 amp circuit
- Integrated circuit protector
- Kickstand for upwards air direction

- Convenient carrying handle

Specifications

Airflow (CFM)	800 - 1,100
Horsepower	1/4 HP
Voltage (V)	115 V
Amperage (A)	1.9 / 2.4
RPM	1,450 / 1,600
Weight (LBS)	20
Cord Length	25 ft
Dimensions	20" x 17" x 8.5"
Certification	cETLus
Warranty	1 Year
