# Milwaukee 5517-21

## Rotary Hammer, 1-9/16", SDS-Max

**Item Number:** MI-551721

Our 1-9/16” SDS MAX Rotary Hammer is designed for all-day concrete drilling and chipping. The powerful 14A Motor delivers 5.6 ft-lbs of impact energy for demanding applications in any orientation. Our AVS Anti-Vibration System is designed to reduce vibration, limit fatigue, and increase jobsite productivity. This rotary hammer offers maximum versatility with two-mode operation and 12-position chisel rotation, while a mechanical clutch provides protection in a bind-up. Our 1-9/16” SDS MAX Rotary Hammer delivers the power needed to complete a variety of applications when power is readily available.

## Features

- Powerful 14-amp motor delivers 5.6 ft-lbs (7.6 J) of impact energy 488 RPM, and 3,300 BPM
- Soft start allows maximum control and accuracy at start-up
- 2-mode operation for rotary hammer and hammer only
- LED light illuminates drilling surface for increased visibility
- AVS Anti-Vibration System minimizes handle vibration for maximum comfort

- Mechanical clutch protects the tool in a bind-up
- 12-position chisel adjustment allows the user to adjust the bit for operating versatility
- 5-year warranty

## Specifications

| | |
|---|---|
| **Bit Capacity** | 1-9/16" |
| **Core Bit Capacity** | 4" |
| **No Load Speed** | 488 RPM |
| **BPM** | 3,300 BPM |
| **Impact Energy** | 5.6 ft-lbs |
| **Length** | 17.5" |
| **Weight (LBS)** | 15.18 LBS |
| **Warranty** | 5 Years |
