Patron WPF-2

2" Firefighting Water Pump Kit, Honda GX200

Item Number: PA-WPF2

This all-in-one firefighting kit provides everything you need to set up and operate a high-pressure water pump capable of spraying water up to 80 feet. Powered by a reliable commercial-grade Honda engine, it offers an exceptional power-to-weight ratio and is built for continuous, all-day use in demanding conditions. The high-pressure pump delivers both standard water displacement and powerful spray performance when paired with the included fire hose and nozzle attachments. Mounted on a rugged steel roll cage cart, the system is easy to transport and quick to deploy wherever it’s needed.

Features

- Ideal for property protection, remote fire response, and high-performance water delivery
- Includes the hoses and accessories needed to setup and operate the high pressure pump to spray water up to 80 feet
- Steel roll cage cart has everything needed to move and set up the system
- Includes 12' suction hose, 50' fire hose, and fire hose nozzle
