

Patron L-400

400W LED Light Cart

Item Number: PA-L400

The 400W Double-Head LED Light Cart is built for the toughest construction environments, delivering exceptional brightness and flexibility. Featuring two high-output 200-watt LED heads, it provides a combined 400 watts of crisp, high-quality illumination to maximize visibility and safety across expansive job sites. The rugged, weather-resistant construction stands up to harsh conditions, while heavy-duty wheels and an adjustable mast make repositioning and height adjustments quick and easy. A built-in GFCI outlet enables users to daisy chain multiple units, simplifying setup for large-scale lighting coverage. Designed for performance and efficiency, this light cart ensures consistent, reliable lighting to keep projects on schedule and crews working safely.

Features

- GFCI Outlet - Daisy Chain up to 4 units!
- Heavy duty winch for easy raising and lowering
- Integrated wheel locks
- Quick Connect Light Heads for easy head replacement
- 45% more lumen output than the competition

- Heavy-duty LED light head with protective cage
- Best-in-class maximum illumination area
- 10" flat-free tires
- Adjust light direction a full 180 degrees vertically
- Tool-free set-up and adjustments
- Optional generator mounting straps available
- 2-stage mast design minimizes storage height
- Suitable for wet locations
- Balloon style light head available
- NRTL certified (CAN & US) to CSA requirements
- 1-Year Warranty

Specifications

Wattage (W)	400 W
Height	Max: 12 ft Min: 7.75 ft
Amperage (A)	3.4 A
Lumens	64,000
Cord Length	17 ft x 18 AWG
Illumination Area	27,576 sq/ft
Certification	NRTL
Warranty	1 Year
