Patron E1.5

Electric Heater, 1.5kW, 12.5A, 120V

Item Number: PA-E15

The E1.5 sets the standard for 120V electric space heaters. Built to run for 10 years without a break, it features a 116 CFM fan motor which distributes warm air throughout the room in a way you never thought possible. Instead of using it to warm a small area/personal space like other common space heaters, the E1.5 is meant to raise the temperature of an entire room by circulating the warm air in a much larger area.

Features

- For heating, drying, and ventilating
- Integrated ambient thermostat from 32°F - 100°F
- Overheat protection at 104°F
- Durable steel casing with powder coating
- Stainless jacketed heating coils
- Fast, high temperature rise with uni-directional fan
- User-friendly and proven reliability

Specifications

Heat Output (BTU/Hr)	5,100
Voltage (V)	120V
Amperage (A)	12.5 A
Wattage (W)	1,500 W
Airflow (CFM)	116 CFM
Cord Length	10-ft (12 AWG)
Plug Type	NEMA 5-15P
Sound (Decibels)	47 dB(A) 1m
Weight (LBS)	13.7 LBS
Dimensions	11" x 12" x 8"
Warranty	2 Years
Certification	UL / cUL
