Patron 594709601

Water Kit, FP75/FP100

Item Number: PC-594709601

This water tank is designed to be used with Patron FP75 and FP100 plate compactors. When compacting hot asphalt, a constant supply of cool water is needed on the surface to avoid hot asphalt sticking to the cold plate of the compactor. Water tanks are also ideal for very dusty applications.

Features

- Tool-free installation - slides onto the machine's roll-cage
- Water output adjustment
- Compatible with both FP75 and FP100
