Patron FP75

Plate Compactor, 17", 203 LBS, Honda

Item Number: PC-FP75

The Patron FP75 forward plate is an ideal choice for small to medium sized jobs. Specially designed for granular soils, this unit features a reliable Honda GX160 engine and weighs 203lbs. The FP75 is also compatible with a hardware-free water tank and heavy-duty wheel kit, making the machine extremely versatile and mobile on the jobsite.

Features

- Sealed bearings make this unit oil-free, resulting in zero eccentric maintenance
- Lifting hook
- Stowable handle
- Optional wheel kit (sold separately)
- Optional water tank for asphalt (sold separately)
