

Patron RP204

Reversible Plate Compactor, 20", 479 LBS, Honda

Item Number: PC-RP204

The Patron RP204 is the smallest of the reversible category and is excellent for compacting medium to deep-layer granular soils. The machine is often admired for its simple one-touch hydraulic forward/reverse lever, which allows the user to keep both hands on the machine for complete control. Featuring a Honda GX200 engine, this machine has the power and durability for precise handling on the roughest surfaces, as well as for spot compaction.

Features

- One-touch hydraulic forward/reverse lever - no need to constantly push or pull
- Hardox 400 steel bottom plate
- Heavy-duty steel frame
- Lifting hook for easy transportation
- Low vibration, stowable handle

Specifications
