Magna-Trak MT102

Magnetic Pin Locator

Item Number: BO-19557

Magna-Trak 100 series LCD indicator offers a digital bar graph display, in addition to a standard audio tone, to precisely identify the target object, especially in noisy, congested areas.

Features

- Rugged high-impact plastic enclosure with aluminum sensor pole
- Powerful magnetic speaker with waterproof Mylar cone
- Easy view LCD for visual signal strength and battery information: Includes two digit numeric signal indicator and flashing "Low Battery" indicator
- Battery life up to 100 hours
- Quick-access battery compartment
- Adjustable sensitivity and volume controls
- Single hand touch-switch operation for power ON/OFF
- Deep tone audio under search conditions; signals "peak" over magnetic objects
- Waterproof locator tube and water-resistant housing
