Panelift 138-2

Cable-Drive Drywall Lift

Item Number: TE-1382

Our number-one product for a reason; we are constantly improving on the original extremely successful 1973 model that started it all. This made-in-the-USA steel beauty is still saving thousands annually in labor costs for its users, not to mention quite a few backs. Panellift® brand, steel body, aircraft-grade steel cable driven, made in the USA. Extension and other accessories available.

Features

- Genuine Panellift® brand
- Easy assembly – no tools required
- Tilting cradle
- Sheets up to 4’x16?
- Max load rating 150 lbs.
